

Model No.	535/2	535/5
Motor (kW)	1.5	1.5
Phase	3	3
Maximum Running Current (A)	3.5	3.5
Weight (kg)	32	32
Noise Level dB(A) *	82	78

Current readings are based upon voltages of 400V 3 Phase and 230V 1 Phase.

* Noise levels have been measured at a distance of 1m from the blower, which was fitted with a ducted inlet and outlet.

Natural gas performance curves based on gas density of 0.6 standard air. Thick line indicates continuous rating.
